

NASONEB[®] Nasal Nebulizer

Large Particle,
Positive Pressure
Nasal Nebulizer
for Home Use

By Fusion Specialty Pharmacy

WHO SHOULD USE THE NASONEB[®] NASAL NEBULIZER?

- Post-operative patients and others with crusting and infection
- Patients with recurrent nasal polyps
- Non-surgical patients who have failed or don't tolerate other therapy
- Patients suffering from allergic rhinitis
- Patients suffering from chronic sinusitis
- Patients with smell disorders

WHAT IS THE NASONEB[®] NASAL NEBULIZER?

The patented NasoNeb[®] System features a unique combination of particle size, airflow, and fluid volume. This results in a controlled therapy delivery only to the nasal and paranasal sinus cavities featuring broad intranasal drug deposition, high intranasal drug retention, virtually no pulmonary deposition and is backed by clinical data. (www.nasoneb.com).

The NasoNeb[®] Nasal Nebulizer delivers a deep, penetrating aerosol to the nasal and paranasal sinus cavities that is comfortable to use and offers fast delivery times, with safety advantages over irrigation and small particle nebulizers.

NasoNeb[®] Nasal Nebulizer can deliver a multiple drug regimen in a simple one to two minute session, and is specifically design for home use with easy to clean and care for parts.

WHY SHOULD I USE THE NASONEB[®] NASAL NEBULIZER?

NasoNeb[®] Nasal Nebulizer's unique and patented positive pressure air-flow system delivers to both the nasal and paranasal sinus cavities for a more effective drug delivery than other nebulizers or washes.

The NasoNeb[®] Nasal Nebulizer can deliver a multiple drug regimen in a single one to two minute session.

The NasoNeb[®] Nasal Nebulizer is backed by peer review and clinical data to be the most effective in drug delivery and patient compliance for continuing drug therapies and wellness regimens.

WHAT PEOPLE ARE SAYING ABOUT THE NASONEB[®] NASAL NEBULIZER?

"I have had a MedInvent Nasal Nebulizer for over five years. It is a miracle cure for my chronic sinusitis (which persisted despite two sinus surgeries). I use it twice daily with plain saline, and with steroids during peak allergy seasons."

-Michael I. from Hillsborough, NJ

"As a patient, the NasoNeb Nasal Nebulizer has been very helpful to me. It's a genius concept in how effective and easy it is to utilize. I highly recommend the NasoNeb to anyone with allergy or sinus issues."

-Chad G. from Indianapolis, IN

"I have had nasal and sinus problems for my entire life. I have used multiple antibiotics, nasal sprays, nebulizers, antihistamines, allergy therapy, decongestants and I have had five nasal/sinus surgeries. After three weeks on the Nasoneb with Mometasone I am 100% improved!"
